

## QUALITY STATEMENT CONFIRMATION – ANTI-DOPING

AGRANA Stärke GmbH confirms that no substances stated on the WADA Anti-Doping List 2025 are used in our manufacturing processes at any time. Due to this fact and the use of the natural raw materials corn, wheat and potato we assume that our products are free of these substances according to our current state of knowledge. We want to mention that we do not perform any analyses regarding the mentioned substances.
